

**Missouri Division of Cannabis Regulation**  
**Guidance Document – 1/31/2023**  
**Topics: Lab Testing**

**Testing Licensees**

As of February 3, 2023, testing licensees originally certified as a medical marijuana testing facility shall be deemed “marijuana testing facilities” and will be certified to conduct testing activities with respect to all marijuana product, whether received from a medical or a comprehensive facility.

DCR is aware of the Vitamin E Acetate requirement within 19 CSR 100-1.110(4)(F)2. A waiver from this requirement will be provided to testing licensees.

**Tagging Third Party Marijuana Product Acquired for Testing**

Beginning February 3, 2023, testing licensees will have the ability to tag marijuana product received from third parties, such as bud/flower received from home cultivators. Per 19 CSR 100-1.130(1)(E) and (F), all marijuana product in a licensee’s facility must be traceable, at all times, in the statewide track and trace system. A Metrc Bulletin providing instruction on how receive and tag products from third parties will follow.
